

The Repromed Patient Support Group meets monthly on the second Wednesday of each month. The group is not intended as a therapeutic group but an opportunity for people to share their experiences. Patients with personal issues should see the Counsellors through the normal process.

It is planned that the group will be self sufficient, offering people a forum to discuss their journey with others and to learn from each other's successes and heartaches. The group circulates a list of email addresses to each member as a way of keeping in contact and facilitating information between members.
